Matheus de Sousa Lima Telles Madureira

Computer Engineering Student — Technical Support & Automation

Belo Horizonte, Brazil · matheussltmadureira@gmail.com · LinkedIn · GitHub · matheus-telles.github.io

EXPERIENCE

HCF Network Tecnologia · Technical Support 2026 – present

- Automation of internal processes to improve operational efficiency
- Technical analysis of public tenders for network infrastructure

Visão Intuitiva · Internship (320h) 2024

- Multi-role work across design, Arduino and back-end development (PHP and Python/Django)
- Support for vehicle tracking solutions, focused on truck fleets

PROJECTS

ENG200 Challenge: Cafeteria Queues · 1st place 2025 · UFMG

Entrepreneurship case for the Introduction to Engineering course: a crowdsourced app where students and staff report the line at each university restaurant, so everyone can pick the time and restaurant with the shortest wait. Our team won first place.

Prototype: matheus-telles.github.io/eng200demo · HTML, CSS, JavaScript

Solar Cycle Analysis · Grade 116.8 2025 · DCC001, UFMG

Interactive Jupyter notebook analyzing over 270 years of SILSO/SIDC sunspot data: 13-month smoothed mean, automatic solar cycle detection and comparison with the official cycles using Welch's t-test, chi-square and Kolmogorov–Smirnov tests.

Online: matheus-telles.github.io/tp-manchas-solares · Python, Jupyter, Matplotlib, SciPy

EDUCATION

B.S. in Computer Engineering

Federal University of Minas Gerais (UFMG) · 2025 – in progress

Technical Degree in Systems Development

UFMG Technical School (COLTEC) · 2022 – 2024

CERTIFICATIONS

- TOEFL – Test of English as a Foreign Language
- Cisco CCNAv7 – Introduction to Networks

TECH

Languages: C, Java, JavaScript, HTML, CSS, Python, PHP

Frameworks and tools: Django, Flask, Unity, Claude

Infrastructure: Docker, virtual machines

SKILLS

Web development (front-end and back-end) · Data structures and algorithms · Computer systems organization and networking · Database modeling · Prototyping · Network setup and maintenance · Process automation · Public tender analysis
